Kapish

# Content Manager Cloud

A fully-managed, secure cloud records management service

Kapish Content Manager Cloud is a secure, cloud platform for delivering OpenText Content Manager Software-as-a-Service. Combining over 30 years of product development in Content Manager with a modern cloud-based platform, Kapish Content Manager Cloud provides a comprehensive solution to address information management challenges across all industries.

Compliant with global information management government standards such as ISO15489, ISO16175 and ISM-PROTECTED (IRAP-ASSESSED), Kapish Content Manager Cloud provides your organisation with a one-stop-shop for information governance compliance.

Seamless integration with enterprise systems such as Microsoft 365 comes out of the box, providing a single solution for managing records in any format, in any system.

With support for both Manage in Place and centralisation for the management of records, **Kapish Content Manager Cloud can support your organisation's specific compliance requirements out of the box.**
