KAPISH WORD ADD-IN

Jumpstart Implementation

The Jumpstart Implementation is designed to get you up and running with Kapish Word Add-In in just two days. This package includes workshops and training to ensure your Micro Focus Content Manager (CM) Administrators and IT Staff understand the configuration and deployment options of Kapish Word Add-In. In addition, Kapish will assist in converting existing corporate templates to utilise Kapish Word Add-In.

Kapish Word Add-In allows users to insert Micro Focus Content Manager (CM) Properties directly into new and existing Microsoft Word Documents. Kapish Word Add-In provides the tools to create and manage dynamic corporate templates within CM. All templates honour Content Manager security and access controls, ensuring access is controlled at the source, in Content Manager.

A Jumpstart Implementation includes the following:

Day One:

Global Setting Configuration Workshop

Kapish will deliver a workshop to your CM Administrators to outline the configuration options within Kapish Word Add-In and how they can be used to benefit your organisation.

Convert Existing Templates

Kapish will work with your CM Administrators to convert and enhance existing templates to use Kapish Word Add-In fields.

Development Environment Testing

Kapish will work with your IT staff to deploy Kapish Word Add-In within your Development Environment and test the global configurations and converted templates.

Day Two:

Implement Global Settings into Production Environment

Kapish will configure the Kapish Word Add-In Global Settings within your Production environment prior to the deployment of Kapish Word Add-In into Production.

Assist IT Staff in deploying Kapish Word Add-In to a Pilot Group

Kapish will assist your IT staff to package and deploy Kapish Word Add-In to a pilot group of users.

Kapish Word Add-In Training Course

Kapish will deliver the Kapish Word Add-In training course to a pilot group of users.

Talk to us today to find out how our suite of products & services can help you get the most out of Micro Focus Content Manager.
