

The power is in your hands

Kapish Power Connect is a Microsoft-certified connector for the Microsoft Power Automate platform - a comprehensive, end-to-end cloud automation platform powered by low code and AI.

Using Power Connect you can easily embed Content Manager in all business automation flows within the Power Automate platform.

Easily configure automation flows to send or receive Content Manager data, integrate Content Manager with all business systems, trigger flows on Content Manager events, automate repetitive tasks within Content Manager and much more.

Eliminate the need to develop custom or ad-hoc integrations, Power Connect lets you do it yourself with no coding skills required. Integrations and automations can be achieved within minutes... it's powerful and ready to go!

Key Features
