

Kapish

About Us

Empowering Secure Technology Solutions

As a Tier 1 Software Platinum Business Partner, Kapish aims to provide its customers with the best software, services and support for all versions of the Electronic Document and Records Management System, TRIM, Records Manager and Content Manager (CM).

For more than 15 years, Kapish has delivered innovative solutions to our customers to meet their information management and enterprise architecture challenges, and lead the global market in developing, optimising, and managing secure technology solutions and strategies to keep information safe.

Kapish support businesses in streamlining, and transforming their information and operations, improving efficiency and achieving their goals. We understand the complexity of managing business-critical information and systems while maintaining integrity, security and usability. Kapish specialises in managing information in complex environments, by integrating know-how, systems and people to provide information on an anywhere-anytime basis.

We help our customers overcome the everyday challenges associated with information governance and document / records management through software and services that improve the user experience and maximise return on investment. Focused exclusively on CM, our extensive range of software solutions are designed to easily integrate into existing systems or be implemented as new solutions, enable projects to be delivered faster, more effectively and with a higher degree of success.
