Power Connect

The power is in your hands

The only Microsoft Certified Power Automate Connector available to interact with Content Manager out of the box.

Kapish Power Connect is the solution to connecting Content Manager to all your business systems. Removing the need to develop custom or ad-hoc integrations, Power Connect lets you do it yourself, with no coding skills required.

With no limitations on compatible systems, just add the connector to your flows within Microsoft Power Automate, and link to send or receive Content Manager data. Integration can be achieved within minutes... it's powerful and ready to go!

Key Features

- Interacts with all business systems
 - M365
 - Social Media Platforms
 - Finance
 - Human Resource
 - Customer Management System
 - Plus, more...
- Ready to go out of the box
- Two-way interaction with Content Manager (send or receive data)
- Transfer metadata and electronic records
- Create links between any business system and Content Manager to reduce duplication and manual processing
- Create and update records, locations and more
- Enables automated activities undertaken in Content Manager, such as
 - Reporting on checked out documents
 - Action/workflow notification
 - System usage reports
- Accessible and user friendly for Content Manager administrators and flow designers
