Updates to VIC PROV 25/02 Create, Capture and Control Standard

The updated Public Record Office Standard requires proper management of AI-generated records, limits data collection to what's necessary, and mandates regular reviews of record controls. PROV is updating its guidelines accordingly.

Content Manager 25.2 Is Here...

What's New?

Highlights include the new Content Manager Connector for BI and reporting (Magellan), a mobile app update allowing record actions, and web client improvements like alphabetical sorting, multi-record selection, preview links, and better search handling.

Tips and Tricks Searching in CM

Top Search Tips:

- Use ***** to replace multiple characters (e.g. Build* finds Build, Builders).
- Use **?** to replace a single character (e.g. Like? finds Likes, Liked).
- Use quotes **" "** to search for exact phrases (e.g. "heritage act").
