

Kapish

Business Process Management Tooling Jumpstart

Accelerated Adoption

Kapish's Signavio Jumpstart delivers rapid capability uplift, combining platform setup with targeted BPM training. Selected representatives are trained in Signavio usage, BPMN 2.0 standards and governance best practices, while the platform is fully configured and ready for use. Key outputs include an enterprise process architecture, configured Signavio environment, configuration and metamodel documentation, and hands-on enablement delivering immediate value and establishing a scalable foundation for organisation-wide process maturity.

What's included?

- ✓ **Phase 1: Design – Process Architecture**
 - Define BPM framework, hierarchy and value streams
 - Inventory and assess current-state processes
 - Synthesize and approve the enterprise process architecture

Outcome: Agreed and approved process architecture
- ✓ **Phase 2: Implement – Platform Configuration**
 - Configure the Signavio environment and core modules
 - Implement process hierarchy, metamodel and modelling standards
 - Set up governance workflows, permissions and navigation
 - Validate configuration and finalise documentation

Outcome: Platform ready for training and general use
- ✓ **Phase 3: Enable – Training & Capability Uplift**
 - Deliver Signavio platform, BPMN 2.0 and governance training
 - Provide administrator enablement and hands-on consultations
 - Establish internal governance and quality practices

Outcome: Sustainable internal BPM capability established

Service Benefits

- Fast time-to-value with a production-ready BPM platform from day one
- Consistent enterprise foundation through standardised process architecture and modelling
- Lower risk and rework by applying proven governance and configuration upfront
- Rapid capability uplift via targeted BPMN, platform and governance enablement
- Scalable path to maturity, supporting progressive rollout and long-term BPM adoption

Typical stakeholders involved

- Process owners and subject-matter experts
- Process modellers and BPM practitioners
- BPM governance or Centre of Excellence leads
- SAP Signavio platform administrators
- Enterprise architects
- Enterprise Transformation representatives
